Portland, OR 97202

TO WHOM IT MAY CONCERN:

I support the re-location of the USS Ranger (CV-61) to the Portland / Vancouver area. Bringing this aircraft carrier to become a permanent part of the metropolitan area has economic, emergency preparedness, cultural, and educational benefits that are extremely important to our area and not just to Portland. I also feel that the maximum benefits that the Ranger can bring to the area is to have the vessel berthed in Portland on the Willamette River.

I am asking my friends, neighbors, and family members to support this project as well. The USS Ranger web site (www.usrranger.org) provides an excellent explanation of the benefits that this project is capable of bringing to the Portland / Vancouver area and I am encouraging all of our elected officials to endorse and strongly support this project as well.

This project represents a tremendous opportunity not only in the economic sense but also in showing appreciation for the sacrifices made on behalf of our country by all of our veterans and their families. This ship will be a lasting and significant memorial to all those that have served and are still serving our nation.

Sincerely yours,
